

Tanushri Das

Frontend Developer

PROFESSIONAL EXPERIENCE

Full Stack Developer

Salesqueen Software Solutions
Chennai, Tamil Nadu, India
Feb 2023 – Apr 2023

- I developed responsive web applications for an ecommerce and a school management website using Html, Css, bootstrap, Javascript and integrated libraries like Swiper.js and jQuery.

Frontend Developer

GlobFluent VidyaTech Pvt. Ltd.
Delhi, India
May 2024 – June 2024

- I developed responsive web applications for a learning platform website using React.js, Tailwind CSS, Swiper.js, and TypeScript.

Projects

Project Name : Sip Coffee

Live Website : <https://coffee-shop-8204e.web.app/>

Project Features

- Integrated custom and social login (Google) using Firebase.
- Users can search the menu by name, filter by price range, and filter by menu category.
- Add items to the cart and wishlist without duplicates, adjust quantities, transfer between wishlist and cart, and remove items.
- Real-time server-side updates using RTK Query.
- Private routes restrict access to carts and wishlists for logged-in users.
- Theme switcher support for both dark and light modes.

Technology Used : React.js, Tailwind Css, Redux Toolkit, Firebase, React icons, SweetAlert2, Rest Api, Node.js, Express.js, Mongoddb.

Project Name : CarCare

Live Website : <https://car-repairing-website.vercel.app/>

Project Features

- Implemented custom and social login (Google/GitHub) using NextAuth.js.
- Enabled booking, editing, and deleting services with real-time cart updates using TanStack Query.
- Built dynamic routes for service details, checkout, and booking updates.
- Added theme switching, and users can add reviews or contact via messages on the contacts page.
- Secured dashboard access with private routes and optimized SEO with dynamic meta tags.
